

PAMELLA SHOME

Pune, India | +91-8918075806 | Pamellashome5@gmail.com | linkedin.com/in/pamella-shome-a31089238

PROFESSIONAL SUMMARY

B.Tech graduate with hands-on Python and Java development across AI/ML, computer vision, REST APIs, automation, and data processing. Strong foundation in Object Oriented Programming (OOP), Data Structures and Algorithms (DSA), SQL, Git, and Software Development Life Cycle (SDLC). Collaborative, customer-centric engineer seeking the AI/ML Computational Science Associate role to design, test, and maintain applications using Python and emerging AI.

TECHNICAL SKILLS

Programming and Core CS: Python, Java, C++, Kotlin, Object Oriented Programming (OOP), Data Structures and Algorithms (DSA), Software Development Life Cycle (SDLC)

Backend, Data, and Tools: SQL, MySQL, DBMS, REST APIs, Flask, Git, GitHub, debugging, testing, technical documentation, Docker

AI / ML and Analytics: Machine Learning, Deep Learning, Computer Vision, OpenCV, NLP, LLMs, Vision-Language Models (VLM), data analysis, data processing, reporting

Platforms: Android Studio, Android Automotive OS, VS Code, MATLAB, PowerShell

PROFESSIONAL EXPERIENCE

EDAG Production Solutions India Pvt Ltd | Pune, India | Jun 2024 – Present

Android Automotive Developer | See-Through Surround-View Application

- Develop, test, and maintain Java middleware for an Android Automotive See-Through surround-view application that ingests live video from multiple vehicle-mounted cameras.
- Optimize the middleware pipeline for real-time use: fisheye-to-spherical projection, multi-camera stitching and blending, seam feathering, and exposure matching for a stable driver surround view.
- Implement REST-style HTTP streaming endpoints between camera capture, middleware, and the in-vehicle display; debug video, performance, and connectivity issues.
- Follow SDLC, OOP, Git, coding standards, and code reviews; write technical documentation and collaborate with hardware, QA, and application teams.

PROJECT EXPERIENCE

Vision-Language Model (VLM) Service Integration | Ongoing

Python | REST APIs | Containerized services | Computer Vision and NLP

- Building a Python application that integrates a Vision-Language Model (VLM) service so camera and image inputs can be queried in natural language for scene understanding with the See-Through pipeline.
- Connecting containerized client, middleware, and VLM components over REST APIs, including payloads, configuration, and service health checks.
- Diagnosed connectivity failures (connection refused) using curl and lsof; isolated root cause across config, ports, and container networking and documented the fix.

Python Automation — Multilingual Test-Case Translation Pipeline | Self-directed

- Developed a Python automation script (openpyxl, python-dotenv) to process QA spreadsheets and translate German test cases to English; migrated the backend to the DeepL REST API while preserving markup, images, and placeholders.

Rental Property Analytics Tool | Data Science Intern, Saanvi Innovations Pvt Ltd | 2023

- Built a Python analytics tool using web-scraped Gurugram rental data (BeautifulSoup), data cleaning, and regression/boosting models for price prediction; delivered visualizations and client reports.

Cervical Cancer Risk Prediction Model | Data Science Intern, Saanvi Innovations Pvt Ltd | 2023

- Developed a Python machine learning pipeline (Random Forest, SVM, XGBoost, LightGBM, CatBoost voting ensemble) with Recursive Feature Elimination (RFE) to predict cervical cancer risk from patient history.

EDUCATION

Rustamji Institute of Technology, BSF Academy | Gwalior, MP | Nov 2020 – Jun 2024

Bachelor of Technology (B.Tech), Automobile Engineering | CGPA: 8.3 / 10 | Rajiv Gandhi Proudlyogiki Vishwavidyalaya, Bhopal

CERTIFICATIONS AND ADDITIONAL

- Python Programming Essentials (Cisco); Data Science and Data Analytics (Kanishka IT Solutions); ANSYS and SolidWorks
- Gen-AI Hackathon by EY (Participant); E-BAJA ATV Vehicle Challenge (Team Member); Coordinated Google Developer Fest 2023. Competencies: analytical problem solving, communication, teamwork, eagerness to learn cloud and AI.
